

1. Study the diagram.

WORD BOX

Transpiration
Precipitation
Ground Water
Evaporation
Condensation
Lake

Use the words from the Word Box to identify the processes in the water cycle diagram.

A. _____

C. _____

B. _____

D. _____

2. Which of the processes results in water changing from a liquid to a gas?

☐ A condensation

☐ C precipitation

☐ B respiration

☐ D evaporation

3. Which of the following correctly represents the water cycle?

☐ A precipitation → condensation → runoff → evaporation → precipitation

☐ B precipitation → runoff → evaporation → condensation → precipitation

☐ C runoff → evaporation → precipitation → condensation → runoff

☐ D runoff → condensation → evaporation → precipitation → runoff

Life Science - Grade HS

Strand 4 Concept 5 PO 3

Diagram the biogeochemical cycle - water

1. A. condensation
 B. transpiration
 C. precipitation
 D. evaporation
2. D
3. B
